

Time for Prints (TFP) Terms 05/07/2011

What I will need from you:

- You will need to sign a model release as the photos may be used in my portfolio, for exhibition or publication.
- You will also need to bring a Photo ID (Driving Licence or Passport) which I will need to photograph you with for the Model Release - to prove who you are (and that you are over 18).

What you will get from me:

- You will get digital versions of all images that I work on from the shoot (JPG @ 747x500 pixels watermarked with my name and website address) - you may use these for non-commercial use and self-promotion as long as you leave the watermark in place and do not edit the images or sell the images in any form. These images are suitable to print A6 size photographs.
- You will get two A4 prints of your choice from the shoot. These must be claimed within 90 days of the shoot. Additional prints are available: A4 @£10 / A3 @ £20.
- You will also get electronic contact sheets of all the shots from the shoot (15 images on a 1600x1200 pixel image watermarked 'PROOF') - these are not to be used for any purpose other than your reference.

Please note:

I am very happy to try and make sure that we both get the sorts of images we need for our portfolios from the shoot, however I am very strict about TFP and payment, I don't charge for studio, consumables etc. and in return I don't pay, not even travelling expenses, although I am very happy to collect and return you to the local mainline railway station.

Robert Babylon remains the copyright holder of all images created during the shoot.
