

# ROBERT BABYLON

Robert Babylon's award winning erotic UV (blacklight) photographs combine traditional photographic skills with cutting edge digital manipulation. Some of these photographs have evolved into hand painted originals using fluorescent acrylic on canvas.

Robert's UV work is just one aspect of his skills. He is a skilled photographer and Photoshop retoucher with over 20 years professional experience. Robert's portraiture, particularly his high-key work is of the highest standard and bears the simple, bold graphic style and flawless finish that identifies a Robert Babylon image.

For those wanting to turn themselves into a work of art, create or simply update their portfolios Robert offers a discreet service of the highest quality, specialising in glamour, fashion and erotic photography. He is available for commercial, advertising and editorial commissions and has studios near Basingstoke and London.

His work has been exhibited internationally, including a solo exhibition at the World Erotic Art Museum in Miami; the SoHo Gallery for Digital Art in New York and Sin City in Las Vegas. His images have been published in magazines and books including Skin Two, Secret, Graal, Jade, Desire, Fetish Photo Anthology and Erotic Signature's The World's Greatest Erotic Art of Today.

## BIOGRAPHY

Born in Surrey in 1961. Worked for the Ministry of Defence on the British National Space Programme in the 1980s. Lectured in Video Production. Project Manager for one of the UK's leading digital media agencies; spent a short spell working in the Seychelles for their television service.

Photography and the new creative opportunities afforded by digital manipulation, were Robert's main passions and so he studied to gain an honours degree in Media Production at Bournemouth University at the age of 30 where he was the only student to major in combining video and animated 3D computer graphics.

Based in Hampshire and London, Robert travels throughout Europe and the USA for commissions.
